ABOUT THE DIALOGUE

On the occasion of the legendary Dr. Peter R. Stopher turning 80, we are pleased to bring you **The Hensher-Stopher Dialogue** – a conversation between two giants of the field that will stimulate the intellect, reflect on advances in transport data, models, and policy over the past 50+ years, trace the history of the field, and inspire generations to come to pursue and explore new frontiers.

DR. PETER STOPHER

Emeritus Professor,
University of Sydney, Australia
Research Professor,
Arizona State University, USA

Dr. Stopher is currently a Research Professor in the TOMNET University Transportation Center of the School of Sustainable Engineering and the Built Environment at Arizona State University, a position he has held since 2020. He served as a Professor in the Institute of Transport and Logistics Studies (ITLS) at the University of Sydney between 2001 and 2015. Prior to that, he held faculty positions at Cornell University, Northwestern University, McMaster University, and Louisiana State University. Dr. Stopher has been a pioneering force in transport survey methods, transport modeling, and transport planning and policy for more than 50 years.
