

ZEPHYR

THE VIRTUAL SESSIONS

SHARE LEARN DISCUSS

Introduction to ActivitySim

Monday September 14th
12-2PM ET / 10AM-12PM PT

The ActivitySim project is a multi-agency partnership to advance travel demand forecasting practice and cost-effectiveness through shared development of the open-source, python-based ActivitySim tool.

Learn: Hands-on instruction on downloading, installing and running ActivitySim and evaluating the results.

Discuss: Project status, work program, and future plans.

Organizer: Joe Castiglione, San Francisco County Transportation Authority
