

## **Our Climate Office is hiring!**

*Are you passionate about addressing climate change?*

*Do you have a technical background, a few years real-world experience, and ready to apply it furthering climate policy in a forward thinking place like Oregon?*

The Oregon DOT [Climate Office](#) was established in April 2020 and is charged with integrating climate considerations into all aspects of ODOT, including efforts to implement the bold state executive order EO20-04. As a technical analyst on our team, you will provide methods, tools, and information to prioritize statewide climate policy actions, legislative decisions, rules and regulations.

**Apply by May 11th!** [External Applicants](#) & [Internal Applicants](#)

### **Overview:**

- Staff position, full time, exempt
- Salary: \$5,203 - \$7,996/month
- Position is based in Salem, Oregon; remote work options
- Work/life balance, 10 paid holidays a year, flexible work schedule
- Competitive benefits packages

### **About the Research Analysis/Data Scientist role:**

*50% Technical Analysis, 20% Performance Mgmt, 25% Project Mgmt, 5% other*

Required: 3-5 years in data/analysis, including coordinating complex research efforts.

Qualities we'd like to see:

- Experience translating technical and non-technical information to audiences.
- Experience conducting independent research and analysis on complex topics.
- Experience developing, reporting, and visualizing performance measures.
- Experience working in transportation, land use or climate change.
