Subject: Transportation Analyst/Modeler position recruitment

The Transportation Analyst/Modeler (Associate in Engineering 2) position in the Oregon DOT Transportation Planning Analysis Unit is open for recruitment until June 2nd.

This position will help evaluate the long-range effects of transportation decisions on travel behavior, transportation system performance, land use and the economy. The Transportation Analyst/Modeler has a variety of transportation analysis duties, including transportation system and facility analysis, multimodal analysis, and safety analysis using a variety of tools. This position will also assist in developing and applying city, regional and statewide transportation models.
