ZEPHYR

THE VIRTUAL SESSIONS

SHARE   LEARN   DISCUSS

Prospective and retrospective views of uncertainty in travel forecasting

Friday June 5th
2:00-3:30 PM EDT / 11:00 AM-12:30 PM PDT

Learn: Contrasting approaches to considering uncertainty in travel forecasting: what could go wrong vs what has gone wrong.

Discuss: Tradeoffs of each and how we could use either or both in practice.

Organizer: Greg Erhardt, University of Kentucky
Presenters: Daniel Engelberg, MIT and Jawad Hoque, University of Kentucky
Respondents: Rachel Copperman, Cambridge Systematics and Tara Weider, Oregon DOT

Registration required | Seats are Limited

JUNE
> Data Standards Panel
> Machine Learning 101 for Transportation Analysis

JULY
> Introduction to ActivitySim
> Network Development Tools + Tricks

AUGUST
> Panel on Race + Gender Lenses in Modeling + Data Collection
> Panel on Behavior Dynamics. The Future...Accelerated

SEPTEMBER
> Panel on the Intersection of Survey and Passive Data Collection
> Workflow Tools + Tricks

OCTOBER
> Panel on Model Construction Techniques
> Visualization Tools + Tricks

NOVEMBER
> Panel on Bridging Domains in Model Building Methods
